

NHSTRA Modified NASCAR Division I Tire Rule

(See Separate Tire Rule for the NHSTRA Modified Quest for The Cup Events)

1. Each competitor at each NHSTRA speedway **WILL HAVE** separate tire inventories (including Quest for The Cup Races - See Cup Tire Rule Below). Tires must be purchased at the track you are competing at. **Competitors are not allowed to purchase tires at another track to bring into another track's inventory.** The NHSTRA group will be communicating with each other to make sure competitors purchase tires at the track they compete at.
2. You are allowed eight (8) new inventory tires to start your season, this drops to six (6) new inventory tires after the track completes four (4) events. **The new inventory tires must be purchased at your first event and cannot be banked unless approved by management.**
3. You are allowed unlimited non-inventory, non-numbered practice tires (serial #'s will be removed), they cannot be used in qualifying, consolation, B-mains, or feature events.
4. After your first (1st) feature race, you are allowed two (2) new inventory tires per feature event you competed in. **You will only be allowed to bank 4 tires** at any time. **Competitors cannot purchase more tires than they have in tire credits (unless they are for practice non inventory tires only).**
5. Any special event or extra distance events, tire rule may differ, but will be announced prior.
6. After half-way on the 2021 schedule, you will be allowed to purchase 4 additional tires unless you have not competed in the number of races completed half way on the schedule (subject to NHSTRA track officials' approval).
7. The tires you qualify on **MUST** be inventory tires. Any tires changed during qualifying, consolation, B-main, or feature must be your inventory tires.
8. Flat Tire Replacements: To replace a tire due to a flat that was witnessed by a speedway official, the tire **must be a new tire listed as a new competition tire on your inventory card for that event.** The tire replacement must be inspected and approved by a track official on the event that the tire went flat (NO EXCEPTIONS).
9. Tire inventory slips must be turned into Track Officials prior to the start of qualifying. NO EXCEPTIONS. This 100% the car owners' responsibility.
10. All tires must pass post-race durometer reading. Track conditions will determine base number.

NHSTRA Modified Quest for The Cup Tire Rule

1. Competitor will be allowed to purchase **four (4) new tires** on the day of the Quest for the Cup event.
2. New tires must be purchased from the track hosting the event.
3. New Tires **cannot** be pre-purchased and will not be released until the tire sales open for that day's Quest for the Cup event.
4. Competitors may use their **used inventory (upon approval from an Official)** registered at the track hosting the Quest for the Cup event. Used Tires are deemed as tires that have a minimum of two full features on them as confirmed by officials.
5. There is no limit in purchase of practice tires. Tires declared as practice tires will not be registered or recorded and cannot be brought into the track's inventory in future weekly or Quest for the Cup events.
6. Tires must be declared and inventory cards passed in prior to time trials.
7. The new inventory tires purchased and registered at the event must be used for time trials and features on the day of the event.
8. All tires must pass post-race durometer reading. Track condition will determine base number.
9. Tires purchased on the day of the event will be registered as part of the competitors' inventory at the track holding the Quest for the Cup event for use in weekly events at the speedway hosting the event.
