Handicapping:	Plus/Minus. Positions to handicap announced at the event.
Driver Introductions:	In car rolling.

TECHNICAL RULES

This event will be governed by the JDV Open Mini Stock rulebook and the information contained here.

TIRE ALLOTMENT

A registered car may purchase up to (2) tires at the event. There is no minimum tire buy. Teams may bring tires from home. These tires must meet the durometer rule outlined in the rulebook.

RACE PROCEDURES

Spotters:

1. Each team may have a spotter.
2. Spotters must be monitoring the race control frequency whenever their car is on the track. Frequency is 454.0000.

Starts & Restarts:

1. The initial start, and all subsequent restarts, will take place within the box. The leader must fire first. If the leader fails to fire by the end of the box, the starter will start the race.

2. The leader of the race has their choice of lane on the initial start, as well as all restarts. Their commitment must be made by the start-finish line on the one-to-go lap and cannot be changed once aligned in their chosen lane.
3. Lapped cars will be aligned at the tail end of the field in order of running on all restarts.

Pitting:

1. Teams will pit behind their haulers.
2. No pulling up to pit.
3. Refueling is not permitted at any point during the race.
4. Maintaining a safe and cautious speed is required in the pit area. Anyone deemed to be speeding in the pits by JDV Open Mini Stock Officials will receive a penalty.
5. No work can be done on cars in the pit area during a red flag.

Lucky Dog Award:

1. The Lucky Dog will be awarded to the first car one or more laps down at the time a caution period is called, providing they were not involved in the incident and they do not pit before the beneficiary is announced.
2. The lap will be credited back electronically. The beneficiary does not need to pass the pace car.
3. The beneficiary will forfeit the Lucky Dog Award if they pit before the recipient is announced. It will not be transferred to the next eligible driver.
4. Should another caution period be called before a lap is completed, there will not be another Lucky Dog Award.

Causing Caution Periods:

1. Any driver causing three caution periods will be parked for the remainder of the event.
2. Drivers intentionally drawing yellow flags will receive a one-lap penalty, and be ineligible for the Lucky Dog Award for the remainder of the event.

PLEASE USE THE TRASH CANS PROVIDED BY THE TRACK AND LEAVE YOUR PIT AREA CLEAN.

NEXT JDV OPEN MINI STOCK EVENT:

Saturday, September 21: 2nd Annual Winchester Fair (NASCAR Whelen Modified Tour event)
